ULSTER COUNTY COMPTROLLER'S OFFICE

Elliott Auerbach, Comptroller

October 31, 2018

2018 Second Quarter Financial Report

For the quarter ended June 30, 2018

Overview

This financial report will review Ulster County's fiscal status as of the second quarter of 2018 (ending June 30th), including the following summaries and updates:

- Year-to-date results of expenditures and revenues;
- The 2018 Budget outlook;
- Cash balances; and
- Select national, state, and local economic indicators.

Note: To provide the most up-to-date and readily available financial data, we have used *unaudited* and *unofficial* amounts as reported within Ulster County's financial management system at the time the data was collected for the purposes of this review. Actual results may vary and are subject to change.

Expenditures

Through the end of the second quarter, the County had expended \$162 million, which included \$23 million attributed to capital projects. The annually adopted operating budget does not account for capital expenses because they are budgeted per project rather than on a yearly basis. Therefore, the County has expended \$139.4 million of its \$324 million budget at the halfway mark for 2018.

As shown in the "Combined Total" column of the chart below, the County spent and/or encumbered \$38.9 million on salaries ("Personal Services"), \$11.6 million for "Employee Benefits," \$85.8 million on "Contractual Expenses," and \$3.1 million on other charges such as payments between funds, capital outlays, and debt service obligations. Based on the data reflected within the County's financial management system, about 43% of the 2018 adopted budget has been expended and/or encumbered as of June 30, 2018 (excluding capital projects). Compared to the same period of time as 2017 – when the County had expended and/or encumbered 44% of its adopted budget – year-to-date spending has been reduced by over \$1 million in 2018.

Expenditures by Category 6.30.18 YTD						
Category	Total YTD Encumberances	Total YTD Transactions	Less: Cap Projects	Combined Total	Adopted Budget	% of Total Budget
Contractual Expenses	9,880,488	77,702,673	(1,804,920)	85,778,242	176,282,740	49%
Debt Service	-	1,448,546	-	1,448,546	10,647,977	14%
Employee Benefits	-	11,593,452	-	11,593,452	51,935,857	22%
Equipment & Capital Outlay	13,199,185	9,378,502	(21,012,706)	1,564,981	2,998,615	52%
Personal Services	-	38,934,250	-	38,934,250	81,962,334	48%
Transfers	-	61,232	(1,026)	60,206	-	-
Grand Totals	23,079,673	139,118,655	(22,818,652)	139,379,677	323,827,523	43%

^{*}Encumbered amounts generally refer to funds that have been reserved for purchase requisitions. Capital projects and are often funded with long-term debt and are not included in the annual adopted budget. For purposes of this analysis, we have deducted capital project totals when analyzing percentages of adopted budget amounts.

From April 1st through June 30th of 2018, the County paid over 6,700 invoices, totaling about \$33 million. These second quarter figures, combined with those from the first quarter, amass to over 14,000 invoices – totaling \$83.5 million – at midyear. Property taxes and sales tax distributions paid to various municipalities within the County were the largest categories of payments through the second quarter. For a summary of amounts paid to vendors as of midyear, please see **Appendix A**.

The graphs on pages 4-7 depict the percentage of the annual adopted budget expended by each County "Department" from the General Fund. For the purposes of this report, the term "Department" refers to a reporting unit as classified within the County's financial management system but may not necessarily be a stand-alone unit of government for operational purposes. For more detailed information regarding expenditures of each "Department," please see **Appendix B**.

Note: For the purposes of this report, the "County Budget" reflects the original amounts found within the Adopted Budget (i.e. without amendments) and includes all operating and non-operating departmental budgets, internal service funds, enterprise funds, as well as miscellaneous budget units like Debt Service. Year-to-date transaction totals are reported in addition to encumbered amounts. Preliminary financial information is presented for the purpose of analyzing whether year-to-date transactions correspond with originally adopted amounts found within the operating budget. Information is stated as it is reflected within the County's financial management system as of the date reported, is not final, and is subject to change.

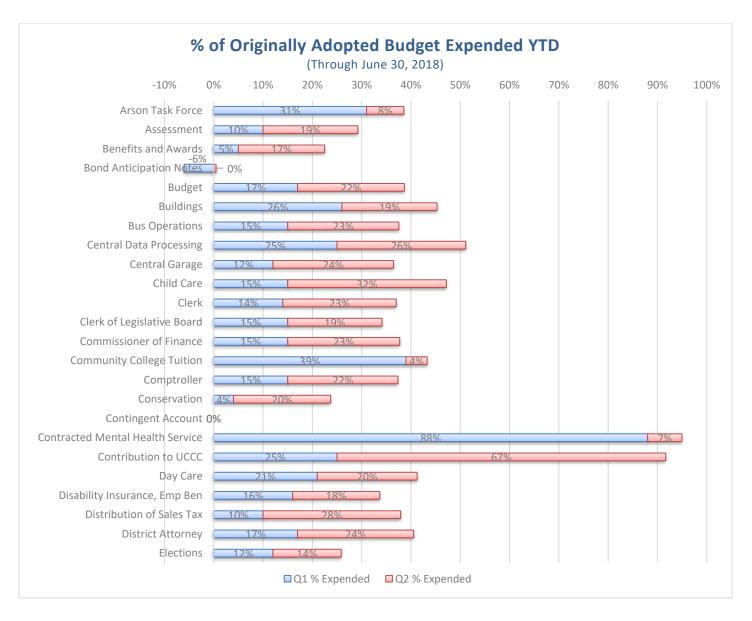

Demonstrated by the following graphs, the majority of County "Departments" (as reported within the financial management system and defined herein) are below 50% of adopted budgeted expenditures as of the halfway point of the 2018 fiscal year. However, it is important to note that certain accounts do not expend monies evenly throughout the year, resulting in fluctuations above or below the 50% mark.

NOTE: The "Departments" reflected throughout the report reflect those reporting units as created and maintained by the Executive's Office and are the same that are used in the Annual Budget Presentation. While they may not correlate to County Departmental Units, as they are generally known, we have maintained the information in this format for consistency and comparison purposes. It is also important to note that employee benefits for health insurance related items and retirement expenditures are not allocated to departments with personal service expenditures until the end of the year and have not been reflected in the figures below.

http://ulstercountyny.gov/comptroller/spending-tracker-jan-june-2018

¹ See "Accounts Payable Invoice Report (Payment Date Range April 1-June 30, 2018) (Report by Vendor – Invoice Summary Listing)" for Ulster County, by New World ERP (Report run on October 30, 2018).

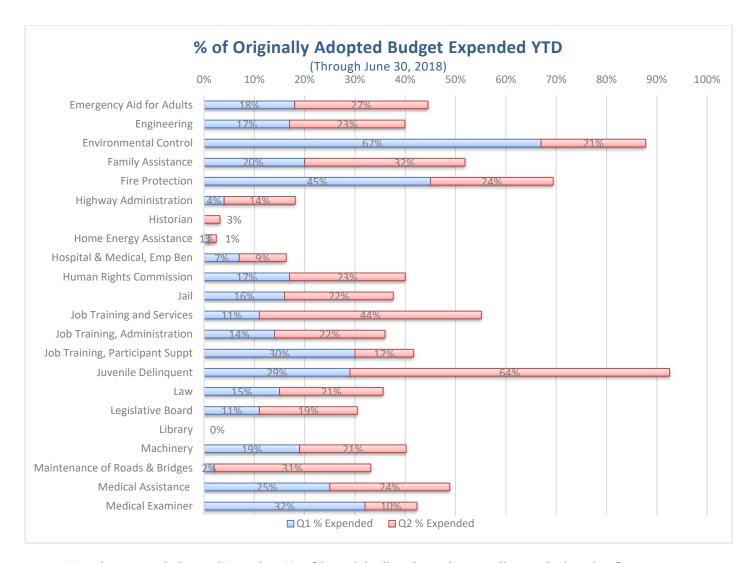

² See gen "January-June 2018 Spending Tracker," by the Office of the Ulster County Comptroller (amounts provided are based on actual payments made, which may not correlate to budgeted figures and may include payments made for prior year encumbrances). Available at

"Contracted Mental Health" showed significantly large first quarter expenditures that included encumbrances, and much of that amount remained committed at the end of the second quarter. There was only a slight budget modification made to increase projected expenditures, indicating that "Contracted Mental Health" would likely experience a similar trend in expenses for the final two quarters of 2018.

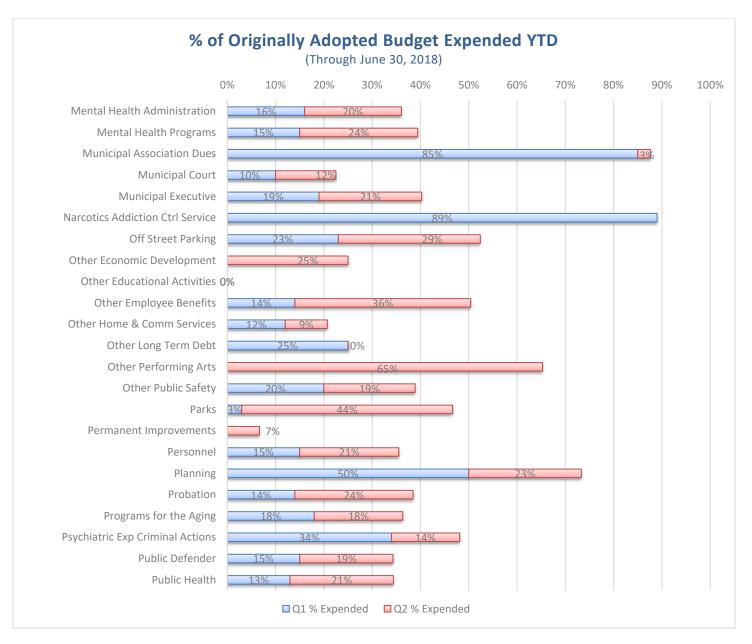

"Contribution to UCCC" resulted in a large portion of expenditures for the second quarter but remained in line with prior years' first and second quarter marks. As no budget amendments have been made as of midyear, this "Department" will likely remain under budgeted projections for 2018.

The "Contingent Account" is a bit of an anomaly because it will always say that 0% has been expended. As this account is simply used for budget transfers, monies are not technically expended out of it. The 2018 budget for this account was over \$1 million, but only \$13,000 had been transferred out through the middle of the year.

"Environmental Control" used 67% of its originally adopted expenditures during the first quarter, resulting in significant budget amendments due to expectations that yearly spending would be higher than originally anticipated. These amendments brought the total second quarter expenditures to 51% of the amended budget for the year. Spending included a \$237,000 encumbrance from 2017 for professional services, which remains encumbered as of June 30, 2018. This amount is associated with grant funding from NYS Department of Environmental Conservation for municipal compost expansion, and the County subcontracted the work to be performed to the Ulster County Resource Recovery Agency.

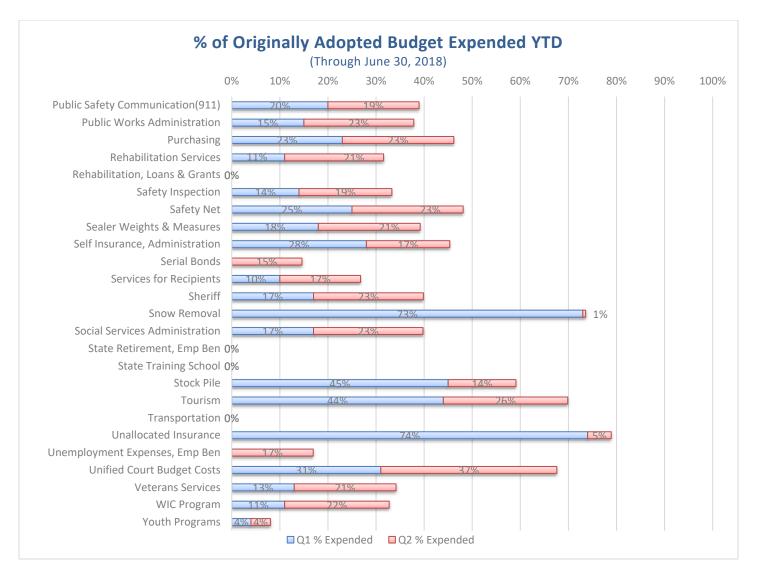

"Juvenile Delinquent" was already slightly above projections at the close of the first quarter, and second quarter expenditures firmly exceeded budget projections for midyear due to a higher than average caseload. After amending its budget, current expenditures represent 58% of that increased amount. An additional amendment may be required for the third quarter if spending is not reduced to first quarter levels. "Fire Protection" expenditures trended above projections for the first quarter, prompting amendments that put total expenditures at exactly 50% of the amended budget through midyear.

The majority of annual payments for "Municipal Association Dues" are traditionally paid during the first quarter. As no budget amendments were made, we expect little activity for the rest of the year.

"Narcotics Addiction Control Service" represents a \$1.2 million budget. With \$900,000 encumbered at the end of the first quarter, \$650,000 remains committed as of the end of the second quarter. No significant budget amendments were noted, indicating this spending will likely remain close to the original budget.

"Other Performing Arts" shows a large second quarter expenditure, which is similar to the same point in time as last year. As no amendments have been made, and as indicated by the results of 2017, this area of expenditure will likely come in under budget.

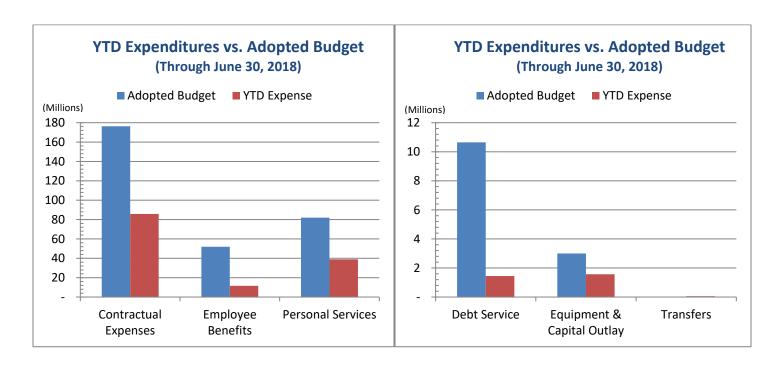

"Snow Removal" expenditures are expected to be high during the first and last quarters of the year due to the greatest likelihood of cold weather events.

"Unallocated Insurance" first quarter expenditures were 74% of budget, which is consistent with prior years. Traditionally, spending throughout the rest of the year slows. As no budget amendments have been made through midyear, the same trend should be true for the current year too.

Please see **Appendix B** of this report for more detailed information regarding each "Department" presented in the graphs above, including the adopted and amended budgeted amounts, as well as year-to-date spending information for both the current and prior years.

When analyzing expenditures by "Category," we see that "Contractual Expenses," "Personal Services," and "Equipment & Capital Outlay" fall in line with 2018 expectations at 49%, 48%, and 52% of originally adopted amounts, respectively. "Employee Benefits" appeared to be below expected levels at 22% of adopted figures. Compared to last year, second quarter expended "Employee Benefits" were at 25% of total budgeted amounts for 2017 with the County expending 95% of the budgeted amount by year end. NYS retirement payments that are categorized as "Employee Benefits" are not made until late in the financial year, which contributes to the deviation from expected results. Lastly, Ulster County's "Debt Service" payments expended through midyear are only 14% of budgeted amounts because most payments are made in November based on maturity dates. However, 23% of budgeted amounts was expended by the same time in 2017. As no budget amendments have been made to this category, the full amount is expected to be expended.

In sum, expenditures for half of 2018 generally fall in line with annual expectations and prior year results. While there have been several budget amendments to reflect changes in the originally anticipated results, the County does not appear to be at risk of going over budgeted amounts.

Revenues

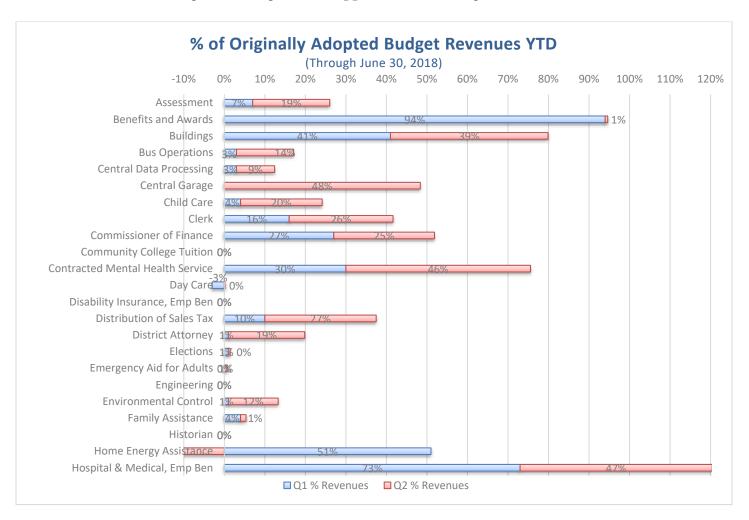

Year-to-date, the County collected \$163.3 million in revenues with \$324 million in total financing sources included within the adopted budget for the year. This figure includes State, Federal, and Local Aid attributed to capital project activity of \$1.8 million that was not included in budgeted amounts. Overall, the County's year-to-date revenues as of the end of the second quarter represented 50% of the originally adopted budget amount of \$324 million. The largest source of revenue can be attributed to \$76.7 million in Real Property Tax collections, which were fully recognized during the first quarter because these payments are due in February. The second largest revenue stream during the first half of the year were Sales Tax collections of \$44.1 million, which are included within Non-Property Tax Items. The following chart details year-to-date revenues recorded and total budgeted amounts for 2018:

Re	venues by Cate	egory 6.30.18	YTD		·
			Total		% of Total
	Total YTD	Less: Cap	Revenues	Total Adopted	Adopted
Category	Transactions	Projects	YTD	Budget	Budget
Departmental Income	4,565,183	-	4,565,183	9,853,697	46%
Federal Aid	6,382,125	(1,116,520)	5,265,606	35,723,360	15%
Fines and Forfeitures	170,303	-	170,303	527,364	32%
Interfund Revenues	3,792,863	-	3,792,863	5,361,252	71%
Interfund Transfers In	61,232	-	61,232	-	0%
Intergovernmental Charges	6,886,219	-	6,886,219	7,416,974	93%
Miscellaneous Local Sources	637,158	(26,939)	610,219	1,003,600	61%
Non-Property Tax Items (incl. Sales Tax)	45,543,130	-	45,543,130	121,063,268	38%
Other Financing Sources (incl. Fund Balance)	-	-	-	13,009,279	0%
Proceeds of Obligations	-	-	-	-	0%
Real Property Tax Items	3,557,870	-	3,557,870	5,700,000	62%
Real Property Taxes	76,702,797	-	76,702,797	75,700,783	101%
Sale of Property and Compensation for Loss	1,114,150	-	1,114,150	1,228,900	91%
State Aid	12,994,192	(613,684)	12,380,508	45,885,408	27%
Use of Money and Property	906,099	-	906,099	1,353,638	67%
Grand Total	163,313,320	(1,757,143)	161,556,177	323,827,523	50%

Revenue collections may be subject to some timing differences that cause fluctuations throughout the year. For instance, due to differences between the state and county budget cycles, "State Aid" is usually received for programs in the later parts of the year as the NYS budget is usually finalized by April 1st, explaining why only 27% has been recognized to date. "State Aid" revenue during the first quarter was \$3.4 million, and many of the programs that are partially supported by "State Aid" appeared under budget. During the second quarter, an additional \$9 million of the \$46 million budgeted was recognized. Other revenues that seem to deviate from expected year-to-date amounts are primarily due to timing differences.

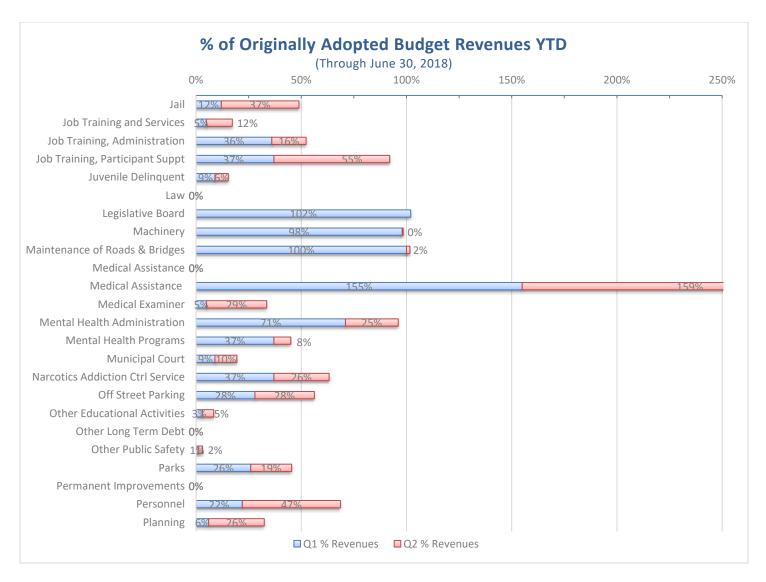

"Non-Property Tax Items" include a variety of tax revenues, including hotel/motel room occupancy tax, sales and use taxes, and other surcharges collected by the County. By midyear, the County collected about 38% of these revenues from "Non-Property Tax Items" compared to adopted budget amounts, showing consistency with 2017 percentage levels at this time while representing a \$1.6 million semi-annual increase in collections through half of this year.

The graphs on pages 10-12 detail the amount of revenues collected versus adopted budget amounts for each "Department" indicated within the County's financial management system. For more detailed data on "Departments," please see **Appendix C** of this report.

"Home Energy Assistance" recognized 51% of departmental revenues in Q1; however, reductions in Federal Aid in the second quarter reduced the total amount of revenue received to 13%.³ "Hospital & Medical, Emp[loyee] Ben[efits]" represents stop-loss payments received along with other insurance recoveries that are part of the County's self-insurance plan. These revenues include stop loss recoveries from 2017 that were not received by the County until 2018.

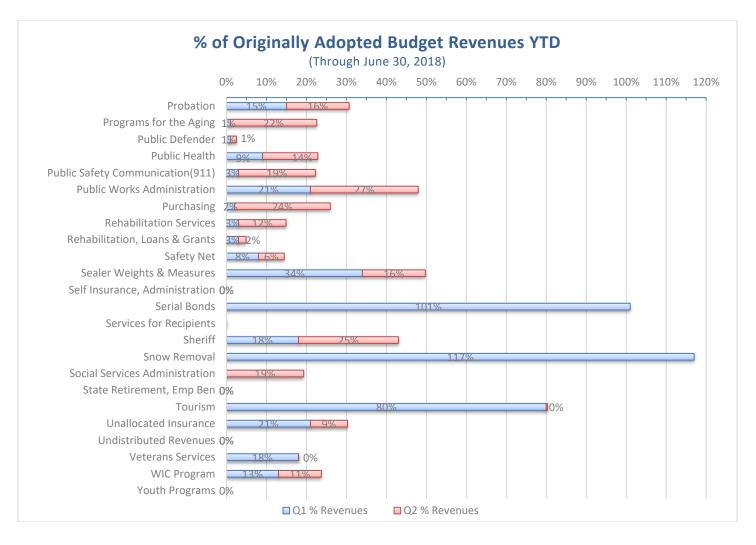

³ Due to formatting limitations, we were unable to fully display the activity of both quarters within the chart above.

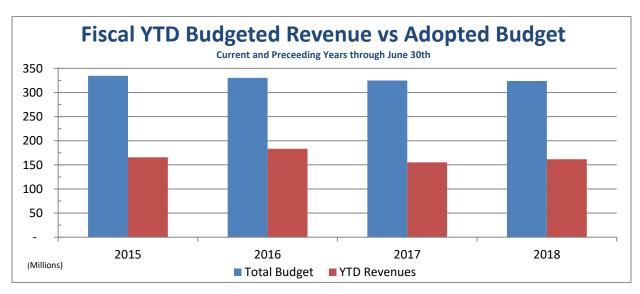

As previously shown, the County has already recognized 100% of budgeted Real Property Tax revenues for the year. Most of these revenues are allocated to the "Legislative Board" for reporting purposes and are offset by estimated Deferred Property Tax collections. The remainder of Real Property Tax proceeds are reflected within the revenues of the following "Departments": "Maintenance of Roads and Bridges," "Machinery," and "Serial Bonds."

"Medical Assistance" revenues account for Medicaid related repayments to the "Department." As of midyear, the County had collected more than 310% of these budgeted repayments – significantly higher than last year's semi-annual results.

While it is common to find that timing differences may contribute to deviations from expected outcomes, the continued evaluation of actual results versus budgeted figures is an important exercise for County management. Significant and unjustified deviations from expected results should be investigated and addressed where necessary by County administrators and policymakers.

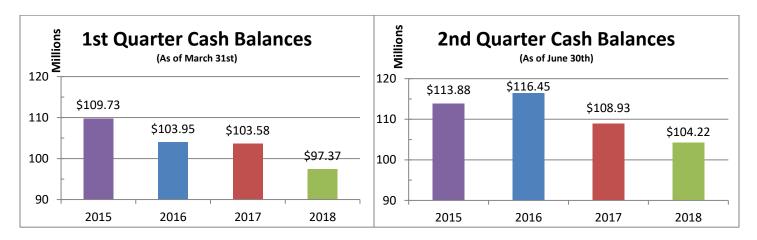

Overall, the chart below shows that the revenues collected in the first half of 2018 are in line with expectations and prior year results.

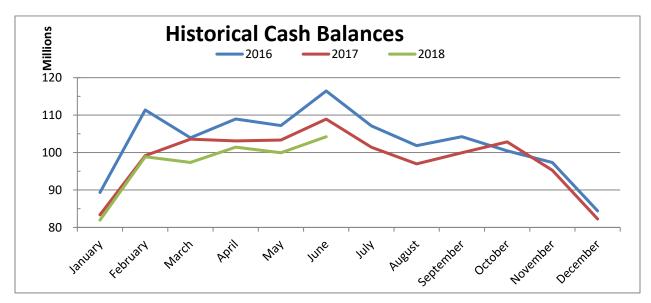

Cash Balances

At the end of the first quarter, the County had its lowest cash balance of the previous four-year period at just over \$97 million. Cash balances were the highest at the end of the first quarter for 2015 at just under \$110 million, as compared to \$104 million reflected within the financial records for both 2016 and 2017. Across this period of time, the second quarter cash balances show an upward trend from the first quarter in each year. Further, the second quarter of 2018 represents the lowest quarterly cash balance over the four-year period, indicating these figures will likely trend below historical values throughout the entire year. The following amounts are presented as they were within the County's financial management system at the time this report was drafted; amounts for 2018 are unaudited and subject to change.

Cash balances fluctuate throughout the year, reflecting various inflows and outflows, as demonstrated in the graph below:

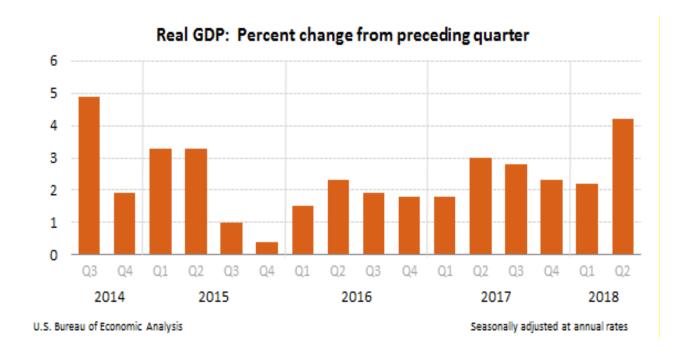

As shown by the preceding graph, cash balances tend to decline toward the end of the calendar year before being replenished by the first installment of property taxes that are due by the following February. Cash balances in 2018 are less than in previous years, yet appear to be following expected trends in comparison to prior years' results.

Economic Outlook

Gross Domestic Product:

U.S. Gross Domestic Product ("GDP") measures the market value of final goods and services produced within the country. ⁴ According to a report from the Bureau of Economic Analysis ("BEA"), the real GDP increased at an annual rate of 4.2% in the second quarter of 2018, compared to 3.0% in the second quarter of 2017. ⁵

The following chart represents the percent change from the preceding quarter as reported by the U.S. BEA:⁶

⁴ See gen "Gross Domestic Product: An Economy's All," by Tim Callen. International Monetary Fund (updated July 29, 2017). Available at http://www.imf.org/external/pubs/ft/fandd/basics/gdp.htm

⁵ See "National Income and Product Accounts – Gross Domestic Product: First Quarter 2018 (Second Estimate); Corporate Profits: First Quarter 2018 (Preliminary Estimate)," by the United States Department of Commerce's Bureau of Economic Analysis (May 30, 2018). Available at https://www.bea.gov/newsreleases/national/gdp/2018/gdp1q18 2nd.htm

Consumer Price Index:

The Consumer Price Index ("CPI") is a measure of the average change of the prices paid by urban consumers for a "market basket" of consumer goods and services over a period of time.⁷ The CPI reflects spending patterns of consumers and is based on the expenditures of residents of urban or metropolitan areas. The CPI takes into consideration the changes in prices of goods and services, including but not limited to: food and beverage, housing, apparel, transportation, medical care, recreation, education, and communications. CPI does not include investment items, such as stocks, bonds, real estate, and life insurance.

Consumer Price Index for "All Urban Consumers" increased by 2.9% from June 2017 to June 2018 – the largest 12-month increase since the period ending February 2012. Consumer prices for food rose 1.4% over the same period. "Food prices at home" increased by 0.4% while prices for "food away from home" rose 2.8%. Energy prices were 12.0% higher in June 2018 than the same month of the previous year. Consumer prices for all items less food and energy rose 2.3% from June 2017 to June 2018. Apparel prices were up 0.6% from June 2017 to June 2018, but prices for new vehicles were 0.5% lower. Consumer prices for shelter rose 3.4% over the year.

Unemployment:

The average unemployment rate for Ulster County during the second quarter of 2018 was 4.0%, according to the Local Area Unemployment Statistics Program. This amount was a decrease from the prior year's average of 4.6% and the prior year's first quarter results of 4.4%.

Additionally, the second quarter County unemployment rate was lower than New York's as a whole, which averaged 4.1% for the second quarter of 2018. The NYS unemployment rate remains above that of the U.S. average, which was 3.8% for the second quarter.¹⁰
