

# THIRD QUARTER FINANCIAL REPORT:

# ECONOMIC OUTLOOK, REVENUES, EXPENDITURES & CASH BALANCES

Office of the Ulster County Comptroller March S. Gallagher

**ULSTER COUNTY OFFICE OF THE COMPTROLLER** 

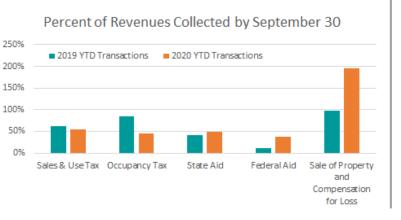

## FINANCIAL REPORT THIRD QUARTER 2020

National GDP figures rebounded while local unemployment & social service populations declined from pandemic highs but still exceed 2019 baselines. COVID-19 spikes, potential job cuts to state aid, and stalling job growth create a negative short-term outlook.

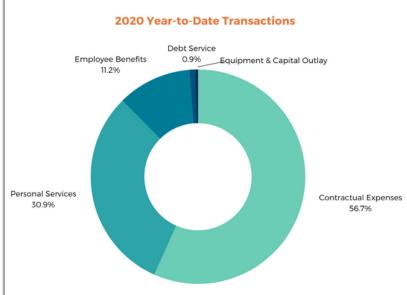

## REVENUES

The County recognized \$212.4 million, or 61.9%, of budgeted revenues, the same percentage as 2019, but \$8.4 million more with the increased 2020 budget.

Ulster County received \$69.2 million in sales tax revenue through the third quarter of 2020 compared to \$75 million received during the same period in 2019.

## EXPENDITURES

Ulster County expended \$191.1 million or 55.7% compared to 61.9% of budgeted expenses in 2019. The 2020 % reduction is a combination of \$12.6 million less in actual expenditures and a \$13.6 million higher budgetary appropriations. Reductions in expenditures were in the areas of miscellaneous contractual as well as capital and equipment outlay.

Ulster County had \$96.2 million cash on hand or \$3.3 million less than 2019. Ulster County expensed over \$29,720,000 on over 5,600 invoices for a monthly average of 475 vendors this third quarter.

# 5.8%

Unemployment rate for Ulster County as of October 2020

#### **Overview**

This financial report highlights aspects of Ulster County's fiscal status through the third quarter 2020 (ending September 30<sup>th</sup>).<sup>1</sup> The report includes an update on the national, state, and local economy, a summary of quarterly results of budgeted to actual revenues and expenditures,<sup>2</sup> and provides an update on cash balances.

**Economy:** The third quarter saw a return of business. National GDP figures rebounded, and we saw declining local unemployment, and social service populations from pandemic highs. Despite the improvements in third quarter economic numbers, the fourth quarter has a negative outlook given the COVID 19 spikes, potential cuts to state aid, and stalling job growth.

**Revenues**: The County recognized \$212.4 million, 61.9%, of budgeted revenues through the third quarter. Through the same quarter last year, the county also recognized 61.9% of its budget. The County has received \$8.4 million more through the third quarter than in the previous year.

**Expenditures**: The County expended \$191.1 million, 55.7%, of the budget in the third quarter of the year. At the end of the same quarter of the prior year, the County expended 61.9% of its budget. The County has expended \$12.6 million less over the same period. The administration's phased approach to limiting spending in response to the financial crisis caused by the COVID-19 pandemic is a main contributor to the reduction in expenditures from year to year.

**Cash Balances**: The cash balance amount for 2020 appears to be following the same trends as prior years, just at a lower level. Cash at the end of Q3 2020 is \$96.2 million, which is about \$3.3 million less than third quarter balances in 2019.

<sup>&</sup>lt;sup>1</sup> We have used *unaudited* and *unofficial* amounts as reported within Ulster County's financial management system as of November 13, 2020 that was collected for the purposes of this review. This report does not include expenditures that are not approved by the Office of the Comptroller, such as payments made within the Welfare Management System managed by the Department of Social Services. Actual results are not final, may vary, and are subject to change. Financial information is not finalized until external audit procedures are completed, which may include audit adjustments.

<sup>&</sup>lt;sup>2</sup> The "County Budget," as identified and described herein, reflects the original amounts found within the 2020 Adopted Budget (i.e. without amendments) for all operating and non-operating departmental budgets, including governmental and proprietary funds. *Capital Project Fund* activity in both revenues and expenditures is excluded from comparisons to budgeted amounts, as capital projects each have their own budget, which is not included in the annual operating budget. This ensures we are comparing budgeted areas to the revenues and expenditures related to those associated areas. The "Departments," as identified and described herein, reflect those reporting units as created and maintained by the Executive's Office that are listed within the Annual Budget Presentation. While these do not exactly match stand-alone County Departmental Units as they generally operate and are traditionally known, we have maintained the information in this format for consistency and comparative purposes.

### **Economic Outlook**

Ulster County's economy was severely impacted by COVID 19 in the second quarter as a result of the NY Pause Orders which closed many businesses. The third quarter saw a return of business as outdoor dining took hold and people learned how to shop and work with social distancing and ventilation. These impacts could be seen nationally in rebounding GDP figures as well as locally in unemployment, housing, and social service populations. Despite the improvements in third quarter economic numbers, the fourth quarter has a negative outlook given the COVID 19 spikes. Local governments will just be seeing the full impact of cuts to state aid in the 2020 budget. While the long-term economic outlook is positive federal aid is needed for state and local governments to ensure government pandemic response (including contact tracing, testing, communications, and social services) can support the return to a robust economy.

#### **Gross Domestic Product**

Although the first impacts of the COVID 19 pandemic were beginning to be felt at the end of the first quarter of 2020, those impacts really drove home in the second quarter. The national economy has rebounded from the precipitous decline in the first and second quarters with an "advance estimate" of GDP growth of 33.1% in the third quarter over the prior quarter.

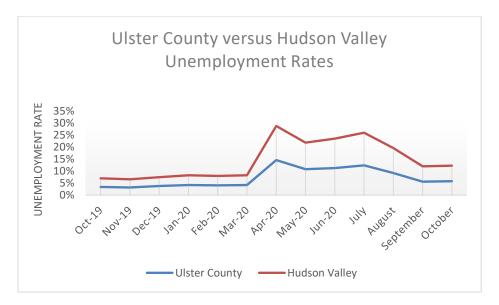

This rebound is evidence of the shorter-lived nature of downturns related to pandemic impacts. The increase in real GDP reflected increases in personal consumption expenditures, private inventory investment, exports, residential and nonresidential fixed investment, partly offset by decreases in federal government spending and state and local government spending.

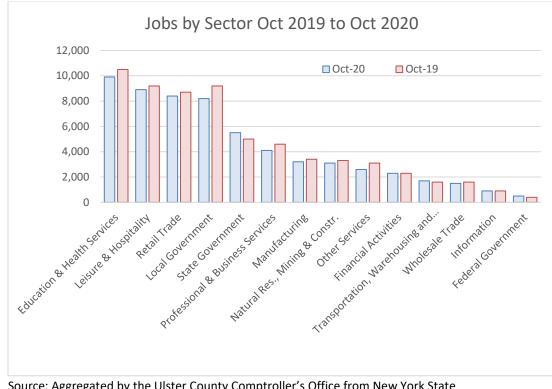

#### Unemployment

Unemployment during the third quarter of 2020 dropped from a high of 14.6% to only 5.8% at the close of October, which was 2.3% more than the October 2019 unemployment rate of 3.5%. Ulster County's unemployment has mirrored the Hudson Valley's numbers and was below the Hudson Valley average at the end of the third quarter as other parts of the region are experiencing higher unemployment such as Westchester (7.0%) and Rockland (6.5%).

Source: Aggregated by the Ulster County Comptroller's Office from New York State Department of Labor Local Area Unemployment Statistics Program available at https://labor.ny.gov/stats/laus.asp

Perhaps more interesting is a look at the industry sectors of employment. Education & Health Services, Leisure & Hospitality, Retail Trade, and Local Government are the most prominent industry sectors of employment making up 58% of nonfarm private sector employment in Ulster County. All sectors saw declines in employment from October 2019, with Local Government seeing the largest decline of 10% year-over-year. State and Federal employment as well as Transportation, Warehousing, and Utilities saw increases over the year.

Source: Aggregated by the Ulster County Comptroller's Office from New York State Department of Labor Monthly Labor Market Profile for October 2020, September 2020, October 2019.

Jobs are being added at a decelerating rate and we are still nearly 10 million jobs less nation-wide than at the beginning of the pandemic. The Bureau of Labor Statistics noted that the pace of improvement has moderated in recent months<sup>3</sup> while President-Elect Biden warned of a stalled economy.<sup>4</sup>

While Ulster County initially rebounded in job growth better than the national labor force, the County exhibits a similar stall to the moderation in job growth. In fact, Ulster County has even more concerning numbers that show a decline in jobs between September and October of 2020.

Ulster County data aggregated by the Ulster County Comptroller's Office from New York State Department of Labor Area Unemployment Statistics of civilian employed person for January 2020 through October 2020.<sup>5</sup>

According to the Federal Reserve Bank of New York Business Leaders Survey, business in the region's service sector declined for the 9<sup>th</sup> straight month in October and capital spending declined for the 8<sup>th</sup> straight month.<sup>6</sup> The majority of respondents did not anticipate conditions to improve over the next six months. County level data on business formation shows serious impacts over the course of the pandemic with information from the Ulster County Clerk's Office on new business formation taking a significant hit during the pandemic.

| Ulster County Clerk's Office  |           |           |         |
|-------------------------------|-----------|-----------|---------|
| Filing Data January 1 through | 1/1/2020- | 1/1/2019- | Percent |
| December 1, 2020              | 12/1/2020 | 12/1/2019 | Decline |
| Business Certificate Filings  | 575       | 697       | 18%     |
| Discontinuance of Bus Cert    | 31        | 40        | 23%     |
| Corporation Filings           | 298       | 332       | 10%     |
| Discontinuance of Corps       | 61        | 81        | 25%     |

<sup>&</sup>lt;sup>5</sup> *Civilian labor force* includes all persons in the civilian noninstitutional population ages 16 and older and *Employed persons* are all persons who, during the reference week did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor-management dispute, job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job. Definitions available at <a href="https://www.bls.gov/lau/laufaq.htm#Q03">https://www.bls.gov/lau/laufaq.htm#Q03</a>

<sup>&</sup>lt;sup>6</sup> Business Leaders Survey Covering Service Firms in New York, northern New Jersey and southwestern Connecticut, Federal Reserve Bank of New York (November 2020), available at

https://www.newyorkfed.org/medialibrary/media/survey/business\_leaders/2020/2020\_11blsreport.pdf?la=en

In Ulster County during the period January 1<sup>st</sup> through December 1<sup>st</sup> of 2020 compared to 2019 new business certificate filings (also known as DBAs or doing business as certificates) were down 18% while corporation filings were down 10%. Filings with the Clerk's Office are only a fraction of business filings as corporation filings can be filed directly with the NYS Department of State. The Comptroller's Office will continue to monitor local, state, and national data on business filings going forward.

#### Housing

Ulster County housing prices continue to rise. According to data tracked by the New York State Association of Realtors, home sale prices have risen 26% over the last 12 months. These sales do not include transactions that are for sale by owner. National news media has continued to report on the real estate market with one example 2,000 square foot home in Saugerties receiving up to 10 offers \$80,000 to \$100,000 over asking price.<sup>7</sup>

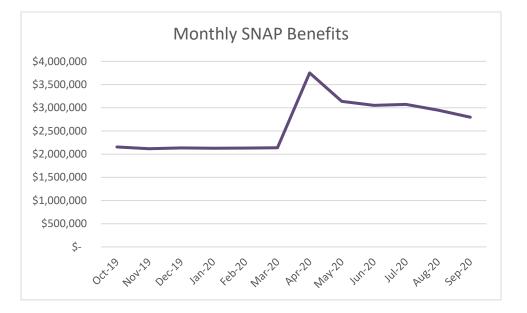

Granular county level rental price data is not available on a timely basis, but anecdotal evidence shows that rental prices continue to climb during this period with little vacancy and continued interest of urban dwellers to find more rural environs. Lack of work, lower income, and increased housing prices lead to more pressure on social services.

<sup>&</sup>lt;sup>7</sup> Anna Bahney, "These people have left big cities for good. Here's where they are headed." CNN (September 1, 2020), available at https://www.cnn.com/2020/08/31/success/leaving-the-city-for-suburbs/index.html

#### **Social Services Impacts**

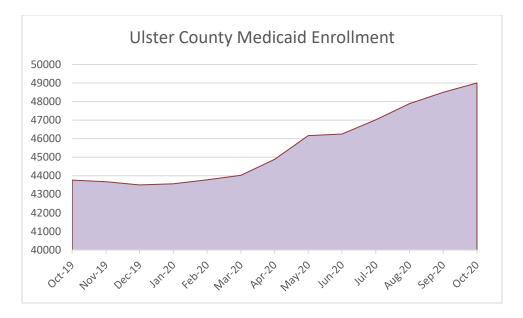

Another way for the County to monitor economic impacts is to examine the populations accessing benefits like the Supplemental Nutrition Assistance Program (SNAP, also known as food stamps) and Medicaid, which provides health coverage to eligible low-income adults, children, pregnant women, elderly adults, and people with disabilities. The pandemic immediately saw an increase in SNAP benefits paid by more than 75% in April of 2020.

It's important to note that both Medicaid enrollees and total SNAP benefits paid were largely unchanged over the twelve months prior to the pandemic. SNAP benefits paid out initially jumped from \$2.1 million to \$3.7 million but has been dropping since the high in April 2020.

Source: Aggregated by the Ulster County Comptroller's Office from New York State Office of Temporary and Disability Assistance Monthly Caseload Statistics available at <a href="https://otda.ny.gov/resources/caseload/">https://otda.ny.gov/resources/caseload/</a>

The number of Ulster County residents enrolled in Medicaid has also continued to climb since the pandemic; however, these numbers appear to be even more inflated than actual need because New York State has issued guidance to counties barring removal of anyone from the Medicaid system during the pandemic. During typical months, some recipients are added to the rolls and some are removed, but none are being removed at this time. Prior to the pandemic, Medicaid populations were very stable.

Source: Aggregated by the Ulster County Comptroller's Office from New York State Department of Health Monthly Medicaid Enrollment Trends from May 2018 – October 2020 available at <u>https://www.health.ny.gov/health\_care/medicaid/enrollment/historical/2018-</u> 2020\_all\_months.htm

#### **Revenues**

County revenues through the third quarter were \$212.4 million, representing 61.9% of the \$342.9 million in total financing sources (revenues and fund balance appropriations) included in the Adopted Budget. The largest sources of revenue can be attributed to \$76.3 million in *Real Property Tax* collections and *Non-Property Tax Items (including Sales Tax)* of \$71.5 million. The following chart details the revenues recorded through the second quarter and annual budgeted amounts for 2020 and 2019:

| Revenues by Category September 30th Year to Date |                |                |           |                |                |           |
|--|----------------|----------------|-----------|----------------|----------------|-----------|
|  |                |                | % of 2019 |                |                | % of 2020 |
|  | 2019 YTD       | 2019 Adopted   | Adopted   | 2020 YTD       | 2020 Adopted   | Adopted   |
| Category   | Transactions   | Budget         | Budget    | Transactions   | Budget         | Budget    |
| Non-Property Tax Items (incl. Sales Tax)         | \$ 77,895,479  | \$ 126,226,458 | 62%       | \$ 71,487,053  | \$ 132,751,423 | 54%       |
| Real Property Taxes                              | 76,509,449     | 75,509,031     | 101%      | 76,318,489     | 75,567,758     | 101%      |
| State Aid  | 19,663,045     | 47,643,471     | 41%       | 26,584,173     | 54,165,167     | 49%       |
| Federal Aid                                      | 3,957,257      | 35,975,331     | 11%       | 12,568,186     | 33,095,059     | 38%       |
| Interfund Transfers In                           | 13,300         | -              | 0%        | -              | -              | 0%        |
| Other Financing Sources (incl. Fund Balance)     | -              | 9,060,561      | 0%        | -              | 13,160,242     | 0%        |
| Departmental Income                              | 5,758,063      | 9,935,811      | 58%       | 5,645,333      | 9,923,745      | 57%       |
| Intergovernmental Charges                        | 7,611,714      | 9,308,274      | 82%       | 7,430,879      | 8,336,974      | 89%       |
| Real Property Tax Items                          | 4,431,147      | 5,440,000      | 81%       | 3,961,073      | 5,435,000      | 73%       |
| Interfund Revenues                               | 3,933,448      | 5,221,474      | 75%       | 3,795,334      | 5,227,200      | 73%       |
| Use of Money and Property                        | 1,645,982      | 1,585,970      | 104%      | 1,193,248      | 2,032,989      | 59%       |
| Sale of Property and Compensation for Loss       | 1,410,770      | 1,449,100      | 97%       | 2,320,660      | 1,188,750      | 195%      |
| Miscellaneous Local Sources                      | 501,624        | 954,100        | 53%       | 435,043        | 971,400        | 45%       |
| Fines and Forfeitures                            | 257,501        | 476,708        | 54%       | 257,264        | 531,894        | 48%       |
| Licenses and Permits                             | 365,882        | 470,000        | 78%       | 354,376        | 489,000        | 72%       |
| Grand Total                                      | \$ 203,954,661 | \$ 329,256,289 | 61.9%     | \$ 212,351,113 | \$ 342,876,601 | 61.9%     |

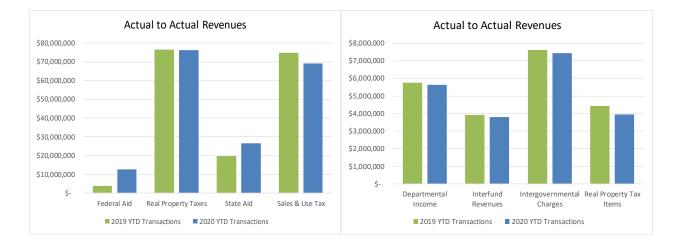

Third quarter year to date revenues in 2020 are \$8.4 million more than 2019, but due to the \$13.6 million increase in total budget amounts, the percentage of budgeted revenues received in 2020 is equal to the percentage received in 2019.

*Non-Property Tax Items* contains various revenues including sales tax. We have prepared an additional chart that further breaks down the amounts into the subcategories:

| Non-Property Tax Items Revenues September 30th Year to Date |               |                |           |               |                |           |  |
|---|---------------|----------------|-----------|---------------|----------------|-----------|--|
|   |               |                | % of 2019 |               |                | % of 2020 |  |
| Non-Property Tax Items                                      | 2019 YTD      | 2019 Adopted   | Adopted   | 2020 YTD      | 2020 Adopted   | Adopted   |  |
|   | Transactions  | Budget         | Budget    | Transactions  | Budget         | Budget    |  |
| Sales & Use Tax   | \$ 74,981,964 | \$ 122,435,116 | 61%       | \$ 69,159,416 | \$ 128,561,423 | 54%       |  |
| Occupancy Tax   | 1,430,703     | 1,700,342      | 84%       | 994,229       | 2,185,000      | 46%       |  |
| Automobile Use Tax  | 907,160       | 1,225,000      | 74%       | 741,669       | 1,200,000      | 62%       |  |
| Emergency Phone System Tax                                  | 575,652       | 791,000        | 73%       | 591,739       | 805,000        | 74%       |  |
| OTB Surtax  | -             | 75,000         | 0%        | -             | -              | 0%        |  |
| Non-Property Tax Items Total                                | \$ 77,895,479 | \$ 126,226,458 | 61.7%     | \$ 71,487,053 | \$ 132,751,423 | 53.9%     |  |

*Sales & Use Tax* above only includes amounts related to January through July sales tax transactions due to the timing of recording transactions in the financial system. This period shows a \$5.8 million decline in sales tax from the previous year. However, once the collections for August and September (which were received after the end of the third quarter) are analyzed, the difference in revenue compared to the previous year shrinks to a \$2.8 million decline - after strong August 2020 sales tax revenues are included. The 2019 sales tax revenue at the end of the third quarter was \$98.6 million, compared to 2020 of \$95.8 million.

Comparing just the third quarter year to date to the total budget by itself may not provide value, therefore, we elected to provide prior year data for contrast. This provides more information for comparison and can help visualize timing issues of receipts.

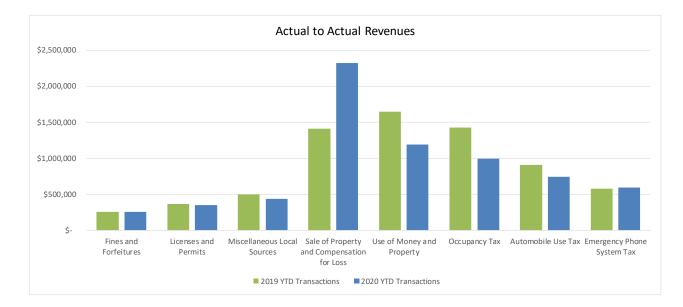

The chart on the left shows Federal Aid revenues are \$8.6 million more than the previous year and the budgeted amount in the current year is \$2.9 million less; nevertheless, the majority of Federal Aid is recognized in the last quarter of the year, this area is still not predictable. Real Property Taxes are recognized in full in the first quarter of the year, therefore this category will show little variance between years. State Aid this year is outperforming by \$6.9 million compared to the prior year, however, the current year budget projected \$6.5 million more than the previous. We are anticipating cuts to State Aid due to COVID related shortfalls at the State level, potential reduction amounts are unknown currently.

Departmental Income is slightly below the prior year amount, and the budgeted amount decreased a little from the previous year. Many factors, a major one being COVID, have impacted departmental revenues. As the pandemic continues, and imminent restrictions and shutdowns through end of the year occur, it is hard to predict how the departmental revenues will end in comparisons to the previous year. In addition, non-pandemic changes such as bail reform, the Green Light law, and Real ID programs also had significant impacts.

Interfund Revenues are down \$140k from the prior year, and there is little change in the budgeted amount from year to year. This category is at 73% of the budgeted amount at the end of the third quarter and has potential to finish around budgeted amounts.

Intergovernmental Revenues are down \$180k, however, 2020 budgeted for a \$1.0 million reduction in this category, meaning this revenue is in line or above expectations at 89% at the end of the third quarter.

Real Property Tax Items show revenues less than the prior year by \$470k and the 2020 budgeted amount was consistent with 2019, indicating the 2020 may fall below expectations.

*Fines & Forfeitures, Licenses and Permits, Miscellaneous Local Sources, and Emergency Phone System Tax* all have relatively small variances from year to year as all are within about \$100k from the prior year.

*Sale of Property & Compensation for Loss* in 2020 is \$910k higher from the previous year due to insurance stop-loss coverage and prescription RX recoveries. The 2020 third quarter revenue was almost double the budgeted amount at 195%.

*Use of Money and Property* had stronger 2019 revenues amount due to higher cash balances and higher percentage yields on interest bearing checking accounts. There is a \$453k difference at the end of the third quarter. The percentage of budget achieved at the end of the quarter in 2020 was 59%, indicating it is unlikely to achieve budgeted amounts in 2020.

*Occupancy Tax* in 2019 had an influx of new registrants of short-term rental properties driving up revenues. This year we have a year to date \$436k variance from the previous year. Occupancy tax in 2020 was at 46% of the budgeted amount at the end of the third quarter. It is almost certain this area will not achieve budgeted amounts. The following chart provides a historical occupancy tax collected as percent of budget percentage through the third quarter and through the end of the year.

| Occupar | Occupancy Tax Revenues Collected as a Percent of Budget |                         |  |   |  |  |  |  |  |
|---------|---|-------------------------|--|---|--|--|--|--|--|
| Year    | Ado   | opted budgted<br>amount | % of budget<br>collected by<br>close of Q3 | % of budget<br>collected by year<br>end |  |  |  |  |  |

| 2020    | \$  | 2,185,000               | 46%  |   |  |  |  |  |  |

*Automobile Use Tax* has a decrease of \$165k from the previous year attributed to a decline in car sales during the beginning of the pandemic which our <u>Mid-Year Sales Tax Report</u> found to be down in the March-May 2020 period compared to 2019. This area is at 62% of budgeted revenues suggesting it is unlikely to achieve budgeted amounts.

For more information regarding revenues of each *Department*, please see Appendix A of this report that includes budgeted and amended amounts, as well as total year to date transactions.

### **Expenditures**

During the first three quarters of 2020 the County expended \$191.1 million of the \$342.9 million budget. Most of those expenditures were \$108.3 million in *Contractual Expenses* and \$59.0 on salaries (*Personal Services*). Based on the data reflected within the County's financial management system, the 2020 year to date expenditures are \$12.6 million less than the 2019 expenditures at the same time last year. The following chart provides September 30<sup>th</sup> year to date expenditure amounts for 2020 and 2019 compared to their respective budgets:

| Expenditures by Category September 30th Year to Date |                |                |           |                |                |           |  |  |  |
|--|----------------|----------------|-----------|----------------|----------------|-----------|--|--|--|
|  | 2019 YTD       | 2019 Adopted   | % of 2019 | 2020 YTD       | 2020 Adopted   | % of 2020 |  |  |  |
| Category   | Transactions   | Budget         | Budget    | Transactions   | Budget         | Budget    |  |  |  |
| Contractual Expenses                                 | \$ 119,298,139 | \$ 177,440,196 | 67%       | \$ 108,344,936 | \$ 182,297,033 | 59%       |  |  |  |
| Personal Services                                    | 58,875,429     | 86,414,139     | 68%       | 59,047,617     | 91,157,492     | 65%       |  |  |  |
| Employee Benefits                                    | 22,394,288     | 51,088,080     | 44%       | 21,323,896     | 53,058,816     | 40%       |  |  |  |
| Debt Service   | 1,353,126      | 12,095,525     | 11%       | 1,630,274      | 13,477,961     | 12%       |  |  |  |
| Equipment & Capital Outlay                           | 1,801,354      | 2,218,349      | 81%       | 751,843        | 2,885,299      | 26%       |  |  |  |
| Grand Total  | \$ 203,735,635 | \$ 329,256,289 | 61.9%     | \$ 191,098,567 | \$ 342,876,601 | 55.7%     |  |  |  |

\*Capital project fund activity is excluded from comparisons to budgeted amounts, as capital projects each have their own budget, which is not included in the annual operating budget. This ensures we are comparing budgeted areas to the actual expenditures related to those associated areas.

Overall, the County expended 55.7% of the budget through the third quarter of 2020 compared to expending 61.9% of the 2019 budget after the first three quarters. The reduction in percentage expensed in 2020 is a combination of \$12.6 million less in actual expenditures and a \$13.6 million higher budgetary appropriation. The administration's phased approach to limiting spending in response to the financial crisis caused by the COVID-19 pandemic is a main contributor to the reduction in expenditures from year to year.

When analyzing expenditures by *Category Contractual Expenses* and *Equipment & Capital Outlay* stand out. We see that *Contractual Expenses* are \$11.0 million less at this point in 2020 than in 2019. This amount seems very frugal considering the 2020 budget allotted for \$4.8 million more than the 2019 budget. The reduction in actual expenditures is mainly due to less miscellaneous contractual amounts spent related to childcare and family assistance programs.

*Equipment & Capital Outlay* is \$1.05 million less than the previous year. The 2020 expenditures only represent 26% of the budgeted amount for the year compared to 2019 which had expended 81% of the budget over the same timeframe. Most of these reductions were in Sheriff and Information Services related equipment and capital outlay.

For more details regarding expenditures of each *Department*, including their 2019 Adopted and Amended Budgets, as well as annual spending information, please see Appendix B.

Ulster County expensed over \$29,720,000 on over 5,600 invoices for a monthly average of 475 vendors this third quarter. The County entered 160 expense contracts totaling \$9,083,171. In addition to vendor payments and contracts, the Comptroller performs weekly, biweekly, monthly, and election worker payroll. In the third quarter of 2020, the claims auditors reviewed and certified over \$19,717,150 in payroll expenses in addition to \$112,057 in payroll and election worker reimbursements for the Board of Elections.

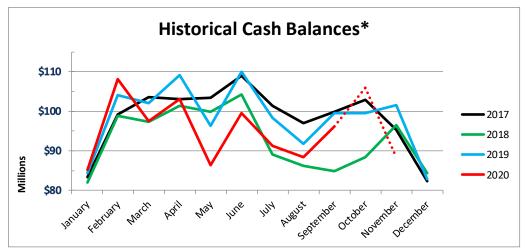

Year to date, the Comptroller's claims auditors have reviewed 17,681 invoices and approved \$111,798,349 in vendor payments. For a monthly breakdown of County payments to vendors, please see the *Taxpayer Checkbook* that is available at the Comptroller's website and current through year end (<u>https://comptroller.ulstercountyny.gov/</u>).

## Long-Term Debt

The County's long-term debt obligations remain unchanged from the previous quarter. For more information regarding the balances and types of debt please refer to our <u>second quarter report</u> which provides more detail on this area. Bond and BAN payments and issuances occur mainly in the fourth quarter and we expect to provide additional information as balances change.

## **Cash Balances**

The County's cash balances in 2020 has trended similar to prior years, just at a lower level starting in June 2020. In September of 2020 cash levels are at \$96.2 million which is \$3.3 million below the 2019 amount, but \$11.2 million above the 2018 amount at the same period. Cash balances fluctuate throughout the year, reflecting various inflows and outflows as demonstrated in the graph below:

\*The cash amounts are presented as they were stated within the County's financial management system at the time this report was drafted and do not include cash accounts that are maintained by departments outside of the Department of Finance's purview.

County cash balances tend to oscillate throughout the year. January cash balances are usually improved by the first installment of property taxes, which are due in February of each year. If historical trends were to continue, once the County makes its annual bond related payments and NYS retirement payments in November and December it appears that the cash position will be around the historical amount by year-end.

#### **Third Quarter Recap**

Ulster County faced a severe contraction as a result of the COVID-19 pandemic that resulted in job losses, and unemployment leading to decreased spending and business activity. Business activity has somewhat resumed. Housing prices have gone up during this period as a result of pressure from people leaving denser environments. Meanwhile the combination of reduced incomes and increased housing prices has resulted in more families seeking benefits like SNAP and Medicaid. The immediate outlook is a return to less activity over the winter as we face the COVID-19 surge, but the long-range impact is positive given coming vaccines.

The difference between actual revenues compared to the actual expenditures at the end of the third quarter indicates a surplus, meaning revenues are higher than expenditures at this time. This year we have a surplus that is \$21.03 million more than the 2019 surplus at the end of the third quarter. During 2019 there was an end of third quarter surplus of \$0.22 million compared to a 2020 surplus of \$21.25 million. We know 2019 ended with a \$7.2 million deficit, but the significant difference in surplus at this point in the year indicates that 2020 may not experience as much of a deficit as 2019. The extent of lagging sales tax revenues and cuts to state aid will impact final deficit numbers for fiscal year 2020.
